## FABRICS

**Micro Lite, Micro Mesh , PM Soft are all 100% Polyester micro fabrics.** Some fabrics are marked with "100% Polyester" only. They all have a different stitching pattern; but all are good sport fabrics/quality. Micro Mesh has a bigger honey comb pattern compared to others and Micro Lite is the best quality among all.

- **Micro Lite:** Suitable up to professional league & national team players
- **Micro Mesh and PM Soft:** good price value for amateur players
- Shirts marked with "**100% Polyester**" only (no Micro or PM Soft) are perfect for promotion or irregular sport (not daily but rather weekly) purposes

**Micro Mesh/Lite** are of special material which transports moisture from your skin to the fabric's surface for rapid evaporation keeping you longer comfortable and giving you a good ventilation (similar to Adidas Dryfit and Nikes Dri-FIT).

## SIZE SPECIFICATION – TEAM WEAR

"Measure and compare with your size"

**Please note** that various brands & countries may have different cm/inch for the same size names. For example L being in some sizes 2 inch bigger with Adidas compared to Nike Football Shirts etc.. **So to find out our right size it's important you "measure and compare with your sample"** and follow these instructions:

1. Take your own (comfortable or target market) sample Shirt  
(T-Shirts also ok – but not too tight)
2. Place it on a table and measure the sizes A as shown below (use chest height)
3. Compare with the chart below and advise us which size you need

Shirts		(our sizes are similar to Nike Football Shirts)	
			<p><b>A Size = 1 x Chest</b> - measured only on 1 side</p> <p><b>B Size = 1 x Length</b> - measure only on 1 side</p>
<i>measured flat on a table (don't put on)</i>
